Note: The most useful family reference DNA samples are from close blood relatives such as the missing persons biological mother, father, children, brothers, or sisters (indicated on chart below with a star). However, close maternal relatives of the missing person allows for the analysis of both nuclear and mitochondrial DNA. If you have any questions regarding the selection of family members for reference sampling, please call **602-223-2394** and ask to speak to a DNA Supervising Forensic Scientist.

CIRCLE BOX BELOW INDICATING RELATIONSHIP TO MISSING PERSON

Any of the shaded boxes represent a potential maternal relative. In addition, if the missing person is female, any of her children are also considered a maternal relative.

I understand that the answers provided on this form are correct to the best of my knowledge. I fully understand that my answers are critical to the process of identifying my missing family member.

I freely and voluntarily consent to provide oral swab samples for DNA analysis and entry into the Combined DNA Index System (CODIS) database, maintained by the FBI under authority of Title 42, United States Code, Section 14132. Law enforcement agencies having online access to the missing persons database may search against my DNA profile for potential matches. I understand that the information I have provided is protected by the Privacy Act notices for the National DNA Index System and the FBI's Central Records System as most recently published in the Federal Register. I understand that the database will not contain any of my personal information, and the DNA profile cannot be associated with me as a donor. I also understand that my DNA profile will be removed from the CODIS database once my family member has been positively identified, provided there are no missing remains.

I authorize the appropriate law enforcement agent listed below to collect these samples for the sole purpose of identifying my missing family member. I have witnessed my swab samples being collected, placed in a sample collection pouch, labeled with my name and sealed.

Entiendo que las respuestas proporcionadas en esta forma son correctas al mejor de mi conocimiento y creencia. Entiendo completamente que mis respuestas son criticas para el proceso de la identificación de mi miembro de familia desaparecido.

Libremente y voluntariamente doy el consentimiento de someter muestras orales para análisis de ADN, los resultados de los análisis serán incorporados en la base de datos del Sistema Índice de ADN Combinada [Combined DNA Index System (CODIS)], mantenidos por la agencia del FBI bajo la autoridad del Título 42, Código de Estados Unidos, Sección 14132. Agencias investigadoras, teniendo acceso en linea a la base de datos de los desaparecidos, podrán comparar archivos de combinaciones de ADN comparables. Entiendo que la información que he dado está protegida por el Acto de Privacidad dentro el Sistema Índice de ADN National [National DNA Index System (NDIS)] y el Sistema Central de Archivos de la FBI como recientemente publicado en el Registrado Federal. Entiendo que la base de datos no contendrá ninguna información personal y el perfil de ADN no puede asociarse conmigo como donante. También entiendo que mi perfil de ADN será eliminado de la base de datos de CODIS una vez que mi familiar haya sido identificado positivamente, siempre que no falten restos.

Autorizo al agente de la autoridad legal indicada, que obtenga una muestra biológica para realizar una prueba genética con el propósito de determinar la identidad del desaparecido. He sido testigo de cómo se recolectaron mis muestras de hisopo, se colocaron en una bolsa de recolección de muestras, se etiquetaron con mi nombre y se sellaron.
