SECURITY GUARD AGENCY NAME SELECTION

In starting up a security guard agency, the first thing you will need to do is get approval of your agency name through the Licensing Unit. Securing your agency name with the Arizona Corporation Commission and/or a trade name through the Arizona Secretary of State's office does not guarantee your name with the Licensing Unit. The Licensing Unit's standards for name approval are much more stringent. The Licensing Unit must consider other factors before approving your agency name. We have sole proprietor agencies and partnerships that are not required to register with the Arizona Corporation Commission and/or Secretary of State's office. We also have uniform administrative rules that require the word "Security" to be used on uniforms when the agency name does not contain the word security. This could cause a conflict with the agency name in certain situations. The general purpose of restricting similar names is to avoid confusion to the public. This confusion can cause complaints and misinformation being provided to the public.

To avoid confusion, the following guidelines should be used.

CHOOSING A NAME FOR YOUR SECURITY GUARD AGENCY

The business name rule expressed below and the method the Licensing Unit uses to approve names is not a difficult process. We strongly encourage you to receive approval of a name through the Licensing Unit **BEFORE** seeking this through the [Arizona Corporation Commission](#) and/or [Arizona Secretary of State](#) as our standards of approval are much more stringent. To be approved for an agency name all you have to do is the following:

- A. Review the information below.
- B. Choose at least three (3) potential names for your agency, in the order of preference, that you would like to use.
- C. Call the Licensing Unit at (602) 223-2361 to see if your proposed agency name is available.
